

New UC184 start/finish point

After the comments about the start and finish for the UC184 course, I rode it a couple of times to see if there is a safer start/finish point on the course.

Here are a few pictures to give you an idea of where the proposed start/finish point could be.

There is parking for 2/3 cars on one side and 2-4 on the other site as well as off road room to stand before and after the TT. I also think it gives a clearer view in both directions firstly from a safety point of view and from a Timing point of view

It is a 1.5 mile from the existing start/finish point

Proposed new starting point for the UC184 With Parking and places to stand safely off the road plus Clear Vision in both directions
